RITRACTS FROM BEVIEWS.

(From the "Straits Times," July 27, 1868.)

Some time ago we had occasion to remark upon the progress that Literature as represented by the Press had made and was ceipt of a Hongkong publication which deserves some notice and which we have much pleasure in introducing to the knowledge of our readers. We allude to Notes and Queries on ' hina and Japan, published monthly by Mr Saint, the proprietor of the China Mail newspaper. This publication is well printed on good paper, and in size and shape is very like its well-known nameevery description, adapted to all Climater sake or prototype at home, and is equally portable, and easily re-creeted by unskilled mine containing very curious and useful information regarding the language, literature, history, manners and customs of the Chinese and in a less degree of the Japanese. It says a good deal for the extent and stability of the footing of Europeans in China, that such a publication as this should be established and conducted with

apparently successful vigour. The publication is altogether a very interesting one, and wishing it every success. we commend it to the attention and support of our readers.

(From the "Friend of India," June 4, 1868.) We acknowledge with thanks the receipt of the numbers for the current year of "Notes and Queries," a most deserving Anglo-Chinese monthly, edited by Mr N. B. Dennys, whose "Treaty Ports of China and Japan" are so well known. From the names attached to the "Notes" we can see that the contributors include some of the best Chinese scholars in the East. Its interest is not confined to China, and it will be of valuable assistance to all scholars, who have directed their attention towards the subject of Buddhism and its literature, and generally to all who are interested in oriental antiquities. It deserves to be better khown in India.

Paking, Yedo, Hongkong, and Macao. It has been carefully compiled and edited by Mr N. B. Dennys; and the elaborate maps and plans, with which the work aboutits, considerably enhance its value. We have thus given in outline some of the more prominent portions of the chapter devoted to Canton, as a specimen of the whole volume. Other chapters treating of Macao, Formosa, Ningpo, Shanghae, and the remainder of the treaty ports, we can only enumerate. The pages describing Peking, the capital, are so interesting, and contain so much that is new to European readers respecting its history, public buildings, and general characteristics, that we would fain transfer them to our columns. In the introductory chapter to the notices of the Treaty Ports of Japan will be found a succinct history of that Empire, together with remarks on its government, geography, and limits, which will be found particularly interesting as throwing a considerable light on a part of the world so long entirely, and still comparatively, unknown to Europeans. The entire work affords a vast amount of information, pleasantly written, and we doubt not will be perused with interest by many who will never visit the
